Welcome Message from the General Chairs

ECCE Europe 2025: Powering the Electric Revolution

Welcome to ECCE Europe 2025 in Birmingham, UK, Europe's largest conference in Power Electronics and Energy Conversion!

ECCE Europe 2025 brings together leading researchers, practitioners, industry leaders, and enthusiasts for thought-provoking discussions on latest advancements and challenges in energy conversion.

Learn from renowned experts through keynote addresses, insightful tutorials, and engaging special sessions, while networking and building valuable connections with colleagues from around the world.

The conference takes place at the International Convention Centre Birmingham from 31 August to 4 September 2025. Birmingham is situated in the heartland where the Industrial Revolution began. Today, the world is at the cusp of a new era: The Electric Revolution. Power electronics plays a pivotal role in this transformation, impacting sectors like energy, mobility, industry, healthcare and many others.

ECCE Europe 2025 will showcase the latest trends and innovations driving this electrification revolution.

Join us for a stimulating and enriching conference experience!

Prof. Volker Pickert
Newcastle University

Prof. Pat Wheeler
University of Nottingham

Aim of the Conference

Power electronics is one of the key technologies to tackle the key challenges of mankind: climate change and sustainability. Therefore, we will move into an electric age, where more and more processes will be electrified, and the use of renewable energy will be the fundament of our future energy backbone.

The ECCE Energy Conversion Congress & Expo series of power electronics conferences are among the largest in the world, and ECCE Europe claims to become the flagship conference in Europe for power electronics, attracting many hundred experts from Europe and other regions of the world.

ECCE Europe 2025 is aimed at exchanging ideas and experience among senior professionals, young scientists, PhD candidates and researchers from industry and academia in all areas of power electronics. During ECCE Europe 2025 in Birmingham there will be opportunities to converse about topics in our wonderful area of work, through lecture- and dialogue sessions, industrial forums and exhibition, technical tours and tutorials.

List of Topics

On top of the tutorials, lecture and dialogue sessions, and technical visits, the organizing committees will propose several industrial forum sessions with panel discussions as well as special sessions of power electronics related topics and trends.

ECCE Europe 2025 will highlight the following Focus Topics, not only in dedicated lecture and dialogue sessions of the conference but also in keynotes, the exhibition, panel discussions, tutorials and technical visits. Technical papers are solicited on any subject pertaining to the scope of the conference including, but not limited to, the following major topics.

I. Components

1. Power Devices, Components and Packaging
2. Power Converters Topologies
3. Converter Modelling, Simulation and Design
4. Measurement, Supervision and Control for Power Converters
5. Data Analysis, Artificial Intelligence and Communication
6. Sustainability of Power Converters
7. Manufacturing

II. Applications

8. Electrical Machines and Drive Systems
9. Renewable Energy Power Systems
10. Power Electronics in Transmission and Distribution Systems
11. E-Mobility and Propulsion Systems
12. Power Supplies and Industry-Specific Applications

The complete list including the sub-topics will be published in the **Call-for-Papers** and on the conference website: www.ecce-europe.org/2025/.

Sponsorship and Exhibition Opportunities

Companies or organizations are welcome to sponsor the conference according to the packages listed below. ECCE Europe is the most important European conference in the field and a must-be for scholars, designers, and engineers, offering the perfect stage for networking among companies and professionals. The organizing committee will ensure that all Sponsoring Companies receive the highest recognition in return for their support to the Congress.

Sponsorship Opportunities

Platinum (exclusive, only one platinum sponsor): 50 000 € (20% UK VAT excl.)

Application and Payment for Sponsorship and Exhibition

Application

Contact: Thomas Harder, ECPE e.V., +49(0)911 810288-0, thomas.harder@ecpe.org or
Sylvie Kostic, KCM Kenzler Conf. Management, info@ecce-europe.org

An online registration tool for sponsors and exhibitors will be available by the end of September 2024 where you can select your booth plus additional booth equipment.

Confirmation and Payment

The local organization Kenzler Conference Management (KCM) will, as far as possible, take into account the requests from sponsors and exhibitors when allocating stand numbers. However, the conference organizer does not guarantee that the booth requested will be available and/or will be assigned. Assignments will be made only after the appropriate payment (100% of total amount payable upon receipt of the invoice).

Confirmation of your sponsorship and stand space as well as of the desired stand number will be mailed to you. However, we reserve the right to relocate the stand on site if necessary. We will of course inform you about this in advance.

VAT (Tax)

All prices are listed in Euro (€) without VAT. Current UK VAT rate is 20 % (as of August 2024).

Contract and Cancellation

A sponsoring agreement will be sent after the receipt of the application. KCM will send an offer and/or a contract upon request.

Insurance

Companies exhibiting at the ECCE Europe 2025 are required to take out an appropriate insurance (liability insurance), and to send a copy to KCM.

Disclaimer

As from the normal publication delays, in the summer period, the organizers cannot guarantee that the full visibility, as described in the packages will be available for bookings after 11th of July 2025. The organizers will make all efforts to propose acceptable alternatives in case the normal service is not available anymore.

Organisation and Venue

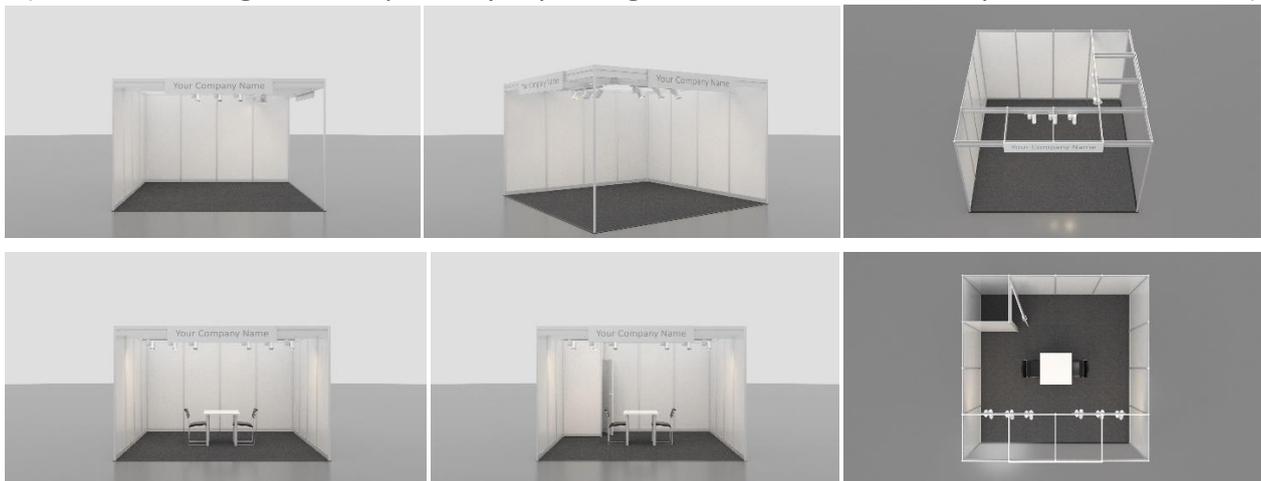

The conference location ICC hosts on average around 400 events a year, welcoming over 350,000 visitors from across the globe in the process. It's ideally situated in the middle of Birmingham, with easy connections within the city as well as the rest of UK.

Exhibition floor plan (ground floor): will be published soon

Information about the stands:

Example of a 4x4m² stand

(Please note: Lengths and depths vary depending on the stand size and the space available on site)

Height of all stands: 2,50 m

Access Route for Suppliers and Exhibitors: will be published soon
