

# CALL FOR POST JOURNAL PRESENTATIONS

Present your work at ECCE Europe 2025!

**ECCE Europe 2025** is offering a **Journal-to-Conference** track, providing authors of published journal papers the opportunity to present their work live to our community of experts and industry leaders.

Through these **Post-Journal Presentations**, authors can actively advocate for their published ideas, draw new attention to their findings, and connect with ECCE Europe's international attendees. Note, however, that this is a **presentation-only** track; journal papers will not be republished in the ECCE Europe proceedings.

## Presentation Session Structure

For the ECCE post-journal presentation we envision having multiple sessions. The planned topics of those sessions will be consistent with the ECCE Europe technical program scope.

## List of Journals from PELS and IAS Society

- IEEE Transaction on Power Electronics
- IEEE Power Electronics Letter
- IEEE Journal of Emerging and Selected Topics in Power Electronics
- IEEE Power Electronics Magazine
- IEEE Open Journal of Power Electronics
